*Summary*

Site is land/some intervening several structures. One is tall & angular; the others, a group, have a rounded component & involve some subterranean element. Surrounding land is relatively flat, w/ short grass, probably an encompassing fence. A very noticeable & unpleasant smell (3) associated w/ S. Fe. Site evokes a pronounced negative emotional feel - incl'dy to some extent, fear, reluctance, sadness, lassitude, etc. feelings, apprehension, etc. People w/ in some way involved w/ site presents S. Fe maintains a certain level of ~~factual~~ tension/apprehension. At a certain point in the past an event occurred or situation ~~exists~~ existed that was of considerable greater magnitude of significance & importance.
